About
the Elective

This two-year Online MBA in Finance is designed based on present-day industry requirements for individuals looking to build or boost their career to managerial, decision-making, and strategic financial roles. It equips the learners with a detailed understanding of using economic data and reports to make better financial decisions. With a Master's in Finance, one can become an expert in technical aspects and gain the skills to research, communicate, convince, and adapt to the rapidly changing environment. The Online MBA Finance program intends to provide an apt mix of diverse abilities to the learners, thus accelerating their careers across key corporate roles in the finance domain.

Elective Highlights:

- Provides a blend of finance and general management courses
- Prepares learners for global certifications in finance like CFA, CFP, FRM, and CIMA
- Gain specialized knowledge in Investment Banking, Derivatives, and Financial Analytics
- Research project for practical experience in solving real-world finance problems
